Volume 17

Number 7

Dear Fellow Residents:

This **Fourth of July** we might find ourselves grilling out, gathering with loved ones, or just enjoying our precious free time. But, **July Fourth** is also a time to step back, to take stock and appreciate the many freedoms we enjoy every day as Americans. **Saturday, July 4th**, is **Independence Day**, the day we celebrate the birth of our Nation. With vision and courage our Founders unequivocally stated to the world in the **Declaration of Independence**: *"We hold these truths to be self-evident, that all men are created equal, that they are endowed by their creator with certain unalienable Rights, that among these are Life, Liberty and the Pursuit of Happiness."* At the time, these were literally revolutionary concepts that fundamentally changed the course of human history.

It has become an **Independence Day** tradition in St. Regis Park for American flags to be placed in the front of each residence. **Councilman Louie Schweickhardt** is once again overseeing this project. If you can assist in the placing of the flags for your block, street or even just a few houses, please call Louie at 639-7731 or send him an email at [kellyandlouie@att.net](mailto:kellyandlouie@att.net).

**Also on July 4th, the American Red Cross will again be conducting a Community Blood Drive at the Upper Highlands Swim Club**, 2413 Parkdale Avenue, from 11:00 a.m. to 4:00 p.m. Appointments are not necessary, and free **Upper Highlands'** day passes and free t-shirts will be given to donors. **Donate blood – save a life!**

On Sunday, **August 9th**, from 4:00 p.m. to 6:00 p.m., the City of St. Regis Park will host our **Annual Old-Time Ice Cream Social** on the Ascension School grounds. There will be games and fun for everyone. A sincere thank you to resident Helen Walter for again donating the ice cream.

Preparations are also being finalized for the **Annual St. Regis Park City-Wide Yard Sale**. The date is **Saturday, September 12th**, beginning at 8:00 a.m. Please mark this date on your calendar.

No doubt you have noticed the newly planted trees throughout the City, dressed in their green watering bags with their yellow tags waiving in the breeze. To date, the **Tree Board** has planted 45 trees throughout St. Regis Park. In addition, 27 residents have already placed their names on the list for the next round of trees to be donated this fall. If you are interested, please contact City Hall at 491-7777 or by email to [cityofstregispark@macmahanfire.com](mailto:cityofstregispark@macmahanfire.com). **RE-TREE THE PARK** is definitely underway.

Last month I mentioned contacting **Metro Louisville's 311 City Call Center** for problems or services. Several residents inquired about the **MetroCall 311** app. The **MetroCall 311** mobile app is available for the iPhone, Android and Windows Phone. The app allows you to submit service requests immediately. You can report potholes, stray animals, and issues with traffic signals, drainage, recycling, and property maintenance.

<https://louisvilleky.gov/governmental/metrocall-311/services/download-311-app>

I have repeatedly emphasized **ST. REGIS PARK IS A GREAT PLACE TO LIVE**, but are you really aware how fortunate we are! Last month I also mentioned one of our **"City Partners," the Upper Highlands Swim Club**, but that is not the only recreational facility adjacent to our City. **The Oxmoor Country Club** also has a swim club, a fitness center, outstanding dining and meeting rooms, and a championship 18-hole golf course. In addition, we are in close proximity to **three major hospitals/medical centers, houses of worship** for most faiths, and **award winning schools**. While we may not have it all, we certainly have most of it! Is there any wonder when a home in St. Regis Park becomes available it sells so quickly?

Best wishes for a memorable **Fourth of July**. As always, if you have questions, comments or concerns, the City Council and I want to hear from you.

Sincerely,  
*Brandt Davis*, Mayor

# BRANCHING OUT

From the wonderful reactions we are getting, most people seem to have noticed the 31 amazing new trees in the ground, representing “Round Two” of our efforts to **Re-Tree the Park!** We are so grateful to Mayor Davis and the City Council for funding the trees, our vendor Action Landscaping for their beautiful trees and very professional and friendly planting staff, Cindi Sullivan for her selections and consultations, and of course, to our citizens, for requesting the trees and agreeing to maintain them. The trees include London planetrees, swamp oaks, elms, red buds, and more! These are all trees that grow well in our area and contribute to the diversity and health of our tree canopy. We also have provided watering devices—those snazzy green bags—on trees we have planted. New owners have been instructed to fill the bag virtually every day for the first three weeks, then twice a week until the tree is established.

Citizens with the new trees have received maintenance instructions, but in case you have a relatively young tree in your lawn, we are repeating them here:

## ST. REGIS PARK TREE MAINTENANCE GUIDELINES:

### Watering:

Adequate water is critical to the health of a newly planted tree; it should receive a regular thorough soaking of the soil in the root zone, and the soil needs to be kept consistently moist (but not wet) until the tree becomes well established, which can take two or more years.

Different species have different water requirements. Soil type and weather conditions also affect the amount of water needed. Frequent watering of new trees provides more benefit than applying large volumes of water infrequently because of the need of the root system to establish into the native soil. This is in direct contrast to well established trees that thrive with less frequent watering with larger volumes of water, rather than light and frequent watering.

Just as a general rule, check the soil moisture and if necessary, water a newly planted tree using a soaker hose or water reservoir device daily for three weeks after planting with 1-2 gallons per inch of trunk diameter; 2-3 times weekly in the first 3 months after planting with 2-4 gallons per trunk diameter; and every week that there is not an inch of rain accumulation thereafter.

**Suggestion:** Remove the green bag from your tree in the winter, and put it back on in the spring. Use your own judgment, but basically we are talking Halloween to April Fool’s Day for having it put away in your garage.

### Mulching:

Mulch will be applied over the tree root zone at planting. Organic mulch suppresses weed competition, retains soil moisture, regulates soil temperature, and improves the soil over time. The optimum depth of mulch is 2-3 inches over the root zone and mulch needs to be kept from touching the trunk in order to prevent moisture from damaging the bark.

**Finally, because so many people have noticed the trees, we already have more than 25 names on a list for trees to be planted this fall. The City Council has approved 60 trees for fiscal year 2015-2016, so make sure you are included in the lottery late this summer. To enter your name, please email or phone your name, address, phone, and email to [msmattingly@outlook.com](mailto:msmattingly@outlook.com) or the city phone line, 491-7777.**

Enjoy the beautiful summer days ahead, water your trees as needed, and relax in their cool shade!

The Tree Board

## MANAGING THE TREES WE HAVE (GET RID OF THOSE VINES)

We are off to a great start to **Re-Tree the Park**, but planting new trees is not enough. We need to manage the trees we have to accomplish our goal of improving the tree canopy in our city.

### Did You Know?

**Vines growing on tree trunks and branches can steal the life from your tree!**

Good vines stay where they are supposed to, on or near the ground. Bad vines that wrap around your tree and climb to the top can squeeze the life out of your tree or shade it out, preventing photosynthesis. A climbing vine can also make your tree more likely to blow over in the wind.

What to do?

- Cut the main vine trunk at the base and remove a section—at least 2 to 3 inches.
- Apply glyphosate, a weed killer, to the cut vine.
- **Don’t rip the vine from the tree—this could damage the bark. Allow the vine to die and gradually drop its leaves.**
- If the vine has overtopped the tree, you may need to hire an arborist to cut out the upper portions of the vine to allow in light.

Let’s get rid of those vines to keep our trees in St. Regis Park healthy and enjoy their cooling shade this summer and for years to come.

*Based on information from Yew Dell Gardens, Louisville Metro Public Works, and the Olmsted Conservancy.*

## WATER SAFETY

**Did you know that drowning is the No. 1 cause of accidental death of young children?** The tragedy behind these grim statistics is that nearly all drowning can be prevented.

With school out and the summer swimming season upon us, now is the perfect time for a refresher on pool safety. Whether a parent, grandparent, or a child's caregiver, following these tips will **help protect children from drowning**:

- Learn CPR.
- Make sure all children attend a certified swimming class.
- Install safety equipment such as a fence or gate and a pool alarm.
- Keep rescue equipment near the pool and easily accessible.
- Completely remove the cover before using the pool.
- Never leave children unsupervised near a pool or other body of water. Constantly watch them and keep them within reach.
- Don't allow children in or around the water if they don't have any knowledge of swimming.
- Never allow children to swim alone without adult supervision. Designate someone to supervise when children are in or around the water. Watch and be observant. Don't use flotation devices as a substitute for supervision.

- Keep toys away from the pool area which can attract young children to the pool, and a child playing with toys could fall into the water.
- Remove all tripping hazards from the pool area.
- Keep a telephone by the pool, with emergency numbers posted nearby.
- If a child is missing, check the pool first. Seconds count in preventing death or disability.

Remember – it only takes a minute for an accident to occur. Please be sure to observe these safety measures to prevent a water tragedy and protect someone you love. American Red Cross chapters and local fire departments often offer first aid and CPR classes.

# INFORMATION TO IMPROVE HOMEOWNERSHIP

## WHO WOULD WANT TO BE WITHOUT ONE?

When the 75 year old man who had been widowed four times was asked why he was getting married again, he said “for the little bit that they eat, I wouldn’t want to be without one.”

In a torrential rainfall, you wouldn’t want to be without an umbrella. It is also understandable that when purchasing or selling a home, more and more people want an agent involved.

NAR’s Homebuyers and Sellers Profile states the trend in owners trying to sell their home themselves has declined over the past 10 years from 14% in 2003 to only 9% in 2014. Similarly, the number of buyers purchasing directly through an owner has decreased from 2001 to 2014 from 15% to 5%.

It is natural to think that a seller wants to get the highest price for their property while the buyer wants to pay the least possible. Negotiations may be the most valuable service provided by an agent because of the clear conflicts of interest such as price, terms and condition.

Other areas of contention that could affect a party without an agent:

- The real estate agent who represents the other party
- The attorney who represents only one party
- Home and pest inspectors regarding condition
- The buyer’s lender regarding terms
- The lender’s appraiser regarding value
- The title company in an effort to satisfy challenges to clear title
- Municipal authorities to mitigate code violations

Even when there are two licensed agents involved, there could be a question of representation. This is a discussion that buyers should have with a real estate professional before looking at houses.

Make certain you know the **TRUE VALUE** of your home **before** listing it for sale. Consult a professional.

## THE STORY OF TAPS

The 24-note melancholy bugle call known as “taps” is thought to be a revision of a French bugle signal, called “tattoo,” that notified soldiers to cease an evening’s drinking and return to their garrisons. It was sounded an hour before

the final bugle call to end the day by extinguishing fires and lights. The last five measures of the tattoo resemble taps.

The word “taps” is an alteration of the obsolete word “taptoo,” derived from the Dutch “taptoe.” Taptoe was the command — “Tap toe!” — to shut (“toe to”) the “tap” of a keg.

The revision that gave us present-day taps was made during America’s Civil War by Union Gen. Daniel Adams Butterfield, heading a brigade camped at Harrison Landing, Va., near Richmond. Up to that time, the U.S. Army’s infantry call to end the day was the French final call, “L’Extinction des feux.” Gen. Butterfield decided the “lights out” music was too formal to signal the day’s end. One day in July 1862 he recalled the tattoo music and hummed a version of it to an aide, who wrote it down in music. Butterfield then asked the brigade bugler, Oliver W. Norton, to play the notes and, after listening, lengthened and shortened them while keeping his original melody.

He ordered Norton to play this new call at the end of each day thereafter, instead of the regulation call. The music was heard and appreciated by other brigades, who asked for copies and adopted this bugle call. It was even adopted by Confederate buglers.

This music was made the official Army bugle call after the war, but not given the name “taps” until 1874.

The first time taps was played at a military funeral may also have been in Virginia soon after Butterfield composed it. Union Capt. John Tidball, head of an artillery battery, ordered it played for the burial of a cannoner killed in action. Not wanting to reveal the battery’s position in the woods to the enemy nearby, Tidball substituted taps for the traditional three rifle volleys fired over the grave. Taps was played at the funeral of Confederate Gen. Stonewall Jackson 10 months after it was composed. Army infantry regulations by 1891 required taps to be played at military funeral ceremonies.

Taps now is played by the military at burial and memorial services, to accompany the lowering of the flag and to signal the “lights out” command at day’s end.

To levy a special sanitation tax assessment under KRS 82.095 on every residence within the City at the rate of \$173.05 per household.

Section 4:

Said taxes shall be due and payable to the "City of St. Regis Park" and mailed to the City of St. Regis Park, C/O River City Bank, 2501 Bardstown Road, Louisville, KY 40205, as follows: July 15 through September 30<sup>th</sup> the discounted amount (5% discount off face amount). Face amount to October 31<sup>st</sup>. November 1 and thereafter, face amount of total bill, plus fifteen percent (15%) penalty, plus an additional one percent (1%) interest charge compounded per month starting November 1, 2015. November 1, 2015 the tax bill becomes delinquent and collection of said taxes shall be made in the manner prescribed by law. Failure to pay the tax and penalty shall and will constitute a lien upon the property in question.

Section 5:

The revenue from said taxes, interest and penalties shall be used for the general operating expenses of the City and for the general purposes for the City in the discharge of its municipal functions as ordained, resolved or directed by the City Council of St. Regis Park. Any surplus from said taxes shall go to the general operation fund of the City.

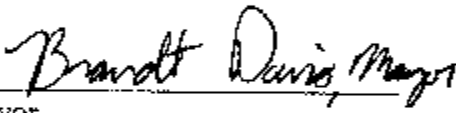

Section 6:

This ordinance shall be effective upon passage and publication.
